

3, Cleaning up Matsumoto Castle

Cleaning up Matsumoto Castle was set up by the volunteer committee in 1982 and has been continuing until now. We have valued this activity as a symbol to embody our school motto "Global citizen."

This activity can also enrich the team spirit of our school by cooperating and being proud as a citizen of Matsumoto city. In 2006, the 20-year continuous cleaning activity was recognized and an award was given by the "Shinshu rich environment creation council".
